FLOATING ANTI-FLORES TABLETS

PURE PARAFFIN FLOATING TABLETS IMPREGNATED WITH ALLYL ISOTHIOCYANATE (MUSTARD ESSENCE).

Conforms with the International Oenological Codex. Not derived from genetically modified organisms.

To prevent the development of flor during preservation

The phase when wine is stored in tanks or barrels is often risky because oxidation can easily take place. The air present between the surface of the liquid and the lid of the container favours the development of the fungal microflora that constitute flor (especially *Candida*, *Pichia* and *Hanseniaspora*), with the inevitable deterioration of the wine, which may lead to the extreme consequence of sourness and acescence.

It is known that allyl isothiocyanate has excellent inhibiting characteristics against the development of oxidative yeast.

The use of Penny floating tablets, impregnated with mustard essence, makes it possible to release the active ingredient gradually into the head space and consequently saturate the air that is present. In this way, any oxidative elements present are inhibited rapidly and over the long term.

Three different formats for each type of container

The high quality of the raw materials used to produce Penny guarantees against negative transfer.

To satisfy needs as a result of different wine containers, Penny is available in three different formats:

- Penny Damigiane: for smaller containers with a capacity of more than 20 litres (demijohns);
- Penny Fusti: for medium-sized containers (barrels);
- Penny Vasche: for large containers (tanks).

Composition

Penny Demijohns: E905 solid paraffin (1 g approx.), allyl isothiocyanate 5%.

Penny Barrels: E905 solid paraffin (7 g approx.), allyl isothiocyanate 17%.

Penny Tanks: E905 solid paraffin (20 g approx.), allyl isothiocyanate 20%.

Characteristics

Appearance: tablets.

Colour: white.

Dosage

Penny Demijohns: 1 tablet to be replaced every 2-3 weeks.

Penny Barrels: 1-2 tablets to be replaced every 15-20 days.

Penny Tanks: 1-2 tablets to be replaced every 15-20 days.

How to use

Place floating tablets on the surface of the wine and close the container.

Storage

Store in a cool, dry environment.

Once the package has been opened, it must be carefully re-closed and stored in a cool, dry environment.

Packaging

Code EXP00118810 Penny Demijohns: cases with 480 tablets in boxes with 6 cases.

Code EXP00119010 Penny Barrels: cases with 120 tablets in boxes with 6 cases.

Code EXP00119210 Penny Tanks: cases with 50 tablets in boxes with 6 cases.
